Works on Cavern Site

EKB Performs Annual Maintenance

Bremen, September 7, 2017: From September 15 - 29, 2017 the Etzel-Kavernenbetriebsgesellschaft carries out the routinely annual maintenance works on site and VT 8.

During this time the facility will be switched off.

These works may cause an increased noise emission. Furthermore, additional illumination is required.

With regard to the neighbours these impacts will be kept as low as possible.

The regulating authorities and the directly affected residents are informed.

Company Information:

Etzel-Kavernenbetriebsgesellschaft mbH & Co. KG is a joint venture established between BP Europe SE, DONG Energy and Gazprom Germania. At its Etzel location (in the Municipality of Friedeburg, close to Wilhelmshaven) the company operates a natural gas storage in underground caverns.

This plant operated by EKB Storage with currently seven underground caverns is one of the most efficient commercial storage facilities in Germany. Per hour 450,000 cubic meters of natural gas can be injected and 790,000 cubic meters withdrawn.
