EKB is offering 200 GWh of working gas via a tender procedure for the current storage year

EKB Storage offers working gas volume

Bremen, 08.07.2019: EKB-Storage auctions 200 GWh working gas. The additional capacity will be made available between July 25, 2019 (6:00 a.m.) and April 1, 2020 (6:00 a.m.).

Details can be obtained from the tender documents available in the [download area](#).

Company Information:

Etzel-Kavernenbetriebsgesellschaft mbH & Co. KG is a joint venture established between BP Europe SE, Ørsted and Gazprom Germania. At its Etzel location (in the Municipality of Friedeburg, close to Wilhelmshaven) the company operates a natural gas storage in underground caverns.

This plant operated by EKB Storage with currently nine underground caverns in operation, is one of the most efficient commercial storage facilities in Germany. Per hour 450,000 cubic meters of natural gas can be injected and a maximum of 800,000 cubic meters withdrawn.
