Successful working gas auction at EKB Storage

Tender of additional working gas drew widespread attention

Bremen, July 17, 2019: EKB's auction of additional working gas was received with great interest.

The tender process established in previous years was also maintained for this auction.

The complete 200 GWh working gas to be auctioned was completely marketed.

The additional capacity will be made available between July 19, 2019 (6:00 a.m.) and April 1, 2020 (6:00 a.m.).

Company Information:

Etzel-Kavernenbetriebsgesellschaft mbH & Co. KG is a joint venture established between BP Europe SE, Ørsted and Gazprom Germania. At its Etzel location (in the Municipality of Friedeburg, close to Wilhelmshaven) the company operates a natural gas storage in underground caverns.

This plant operated by EKB Storage with currently nine underground caverns in operation, is one of the most efficient commercial storage facilities in Germany. Per hour 450,000 cubic meters of natural gas can be injected and a maximum of 800,000 cubic meters withdrawn.
