Maintenance Measures on Cavern Site

EKB Carries out Annual Routine Works

Bremen, July 24, 2019: From August 1 – 30, 2019 the Etzel-Kavernenbetriebsgesellschaft carries out the routinely annual maintenance works.

During this time the facility will be switched off.

These works may cause an increased noise emission. Possibly works are necessary on Sundays (11, 18, 25 August) which require additional lighting. With regard to the neighbours noise and lights impacts will be kept as low as possible.

The regulating authorities were informed.

Company Information:

Etzel-Kavernenbetriebsgesellschaft mbH & Co. KG is a joint venture established between BP Europe SE, Ørsted and Gazprom Germania. At its Etzel location (in the Municipality of Friedeburg, close to Wilhelmshaven) the company operates a natural gas storage in underground caverns.

This plant operated by EKB Storage with currently nine underground caverns in operation, is one of the most efficient commercial storage facilities in Germany. Per hour 450,000 cubic meters of natural gas can be injected and a maximum of 800,000 cubic meters withdrawn.
