Helicopter Operation on Cavern Site

Employee suffers heart attack

Bremen, September 3, 2021: An employee of a specialist company commissioned by EKB for the current maintenance works, presumably suffered a heart attack this afternoon during his work on site.

After an initial on-site examination, the emergency physician who was called immediately arranged for rescue by helicopter. The employee is in the hospital for further examinations and is responsive. The EKB team wishes him a quick and complete recovery.
